Summary

GW & ND McDonald is a privately owned, medium-size Earthmoving Company, based in Moree, providing earthmoving equipment and read mixed concrete to the township of Moree and the surrounding areas for over 50 years.

Description

Since our inception in the 1950's GW & BN McDonald has evolved and grown to become a leader in earthworks in the Moree Plains District.

Our range of products includes high performance pre-packaged cement products, waterproofing products and ground improvement solutions.

As a family owned and oriented business, all employees of GW & ND McDonald embody the values which come with family, trust, honesty and duty of care. What separates us is our dedication to understanding the unique qualities which each project presents and collaborating with our clients to bring their vision to life. We provide the most comprehensive concreting services to schedule and at market competitive rates.

We believe that company culture and core values of Openness, Honesty, Co-operation and Integrity has gain us many repeat customers over 50 years.

Our products are supported by sound technical advice and on-site support. NATA Lab Testing on products are carried out and can be supplied upon request and we are currently third party certified to ISO 14001 standard.

We have a high level of engagement with stakeholders and the local community to ensure we are providing project solutions that reduce any adverse effects we may have on the environment.

Our innovative approach to environmental impact has seen improvements to the way we handle our energy, water, resources and waste solutions. We monitor the effects of our operation on the environment analysing the results to continue to develop smart, practical measures that reduce our overall environmental impact.

Description

With an extensive portfolio of dozens of commercial concreting works, GW & ND McDonald has the privilege to provide our concreting and excavation services to numerous sectors including multilevel residential, retail, office, aged care, education, civil and landscaping.

The scalability of GW & ND McDonald allows for us to meet our clients' needs, accommodating both small and large projects with flexibility, sound knowledge and experience. We are in a sound financial position to scale if required for certain jobs.

GW & ND McDonald are an experienced team with the capacity to manage extensive projects:

- Earthworks Services
- Clearing works
- Bulk earthmoving
- Rehabilitation
- Detailed foundation earthworks
- Civil Construction
- Road Construction
- Draining Projects

We have 7 cement trucks, trucks and trailers, excavators, loaders, bobcats and backhoes.

GW & ND McDonald have completed several significant operations over the years and developed strong, ongoing relationships with our clients. Such projects have included Moree Solar Farm, Puma Service Station and ongoing work for Moree Plains Shire Council.

GW & ND McDonald ensures projects are delivered to the highest quality standards with our extensive range of fit for purpose equipment and modern fleet. Our Machines and equipment are regularly services onsite and locally.

We continue to offer training to our staff as required and are always looking at ways to improve productivity, keeping safety first. Safety, health and the environment are core organisational values and the business is committed to eliminating occupational injuries and illnesses, reducing our environmental impact, and being sensitive to the communities in which we operate.
